Date of Summary:

March 19, 1997

Trade Name:

Cable Holder
Suction Tube Holder

Classification Name:

n/a

Predicate Device:

Tecnadyne Scientific Incorporated,
"Technadyne Endoscopic Instrument Holder"
K940891

Device Description:

The cable or suction tube holder is a sturdy nylon construction available in 1/2" or 3/4" diameter. Pressure sensitive adhesive backing allows for the holders to be positioned on a clean, dry surface. Flexible lock and release loops allow the cable or tube to be retained and held in place.

Intended Use:

The sterile, disposable cable or tube holder is intended to limit the amount of excess cable or tubing that extends into the surgical field. The holders are offered in 1/2" and 3/4" sizes to allow for a variety of diameters. Pressure sensitive adhesive is attached to the back of both sizes to allow for easy attachment to a clean, dry surface.
